

Couronne Table

by DE LA VEGA

Contemporary

United States

The Couronne Table showcases a harmony of intersections. The form is inspired by the work of Art Deco master Maxime Olde.

The base is mixed materials of gunmetal steel, brushed aluminum stretchers and a polished brass screw detail. The top is an elegant pattern of Coquille D'Oeuf (eggshell mosaic), grounded by the dark smooth resin within which it is embedded, trimmed in a satin brass frame.

COQUILLE D'OEUF

An old-world Vietnamese lacquer technique used to create delicate and unique surfaces. Before there was a white pigment for lacquer, artisans would use bits of duck or chicken egg embedded by hand into the surface.
