

COUP D'ETAT

Large Globe Top Spring Lamp *by Daniel Shapiro*

Contemporary

United States

The Globe Top Spring Lamp is hand built from over 35 feet of extruded stoneware tubing that's coiled into a cone form. The tubing leads to a light housing and globe that's affixed to the top of the sculpture and houses a G9 bulb. The light source casts shadows on the tubing below creating dramatic shading accentuating the lamp's form.
