## **Spring Lamp** *by Daniel Shapiro*

*Contemporary*

United States

The Spring Lamp is hand built from over 15 feet of extruded stoneware tubing that's coiled into a cone form. The tubing leads to a smaller cone that's affixed to the top of the sculpture and houses a candelabra bulb. The light source casts shadows on the tubing below creating dramatic shadows that accentuate it's shape.

Its petite size makes the Spring Lamp perfect on a night stand or side table.
