

## Ramus Lounge Chair

2025

We designed Ramus for those who refuse to compromise on beauty, comfort, or craftsmanship. At the heart of Ramus is a stunning architectural structure. The chair's carved solid-wood ribs extend from a sculptural spine, creating a frame that is as visually striking as it is supportive. This minimal yet strong framework serves as the foundation for sumptuous, feather-and-fiber-filled cushions, which appear to float effortlessly within the wooden form. The result is a chair that embraces the user in unparalleled softness and comfort within a surprisingly compact footprint that doesn't dominate the room.
