Inspired by the form and function of grain silos, the Silo Dining Table strikes a balance between utilitarian purpose and aestheticism. This sculptural table features solid wood and hand-finished brass or stainless steel wrapped legs.

Available with optional hollow brass domes that sit atop the table to continue the shape of the cylindrical legs, transforming them with a striking and elegant presence. The magnetized domes are removable, revealing inlay brass and a playful location to store small objects from salt and pepper shakers to matches and coasters. *Made by hand in Pennsylvania.*
